

Position: Psychiatry Residency Training Director

The Henry Ford Health System's (HFHS) Department of Psychiatry is seeking a American Board of Psychiatry and Neurology certified adult psychiatrist as the Psychiatry Residency Training Director. This leadership position offers the opportunity to continue to develop a world class adult residency training program investing in trainee professional growth as well as staff development. Opportunities for additional leadership advancement are available. As a member of the Henry Ford Medical Group, one of the largest in the country, you will have access to colleagues through a clinical network that values close collaboration and open communication. An academic partnership and appointment with Michigan State University as well as Wayne State University enhances academic opportunities at HFH for medical students as well as residents and fellows. Henry Ford is undergoing a major expansion of Henry Ford Hospital including a new, state-of-the art hospital facility and patient tower, a joint research facility for Henry Ford Health + Michigan State University Health Sciences, as well as space for future growth and partnership opportunities. Salary is competitive and benefits include fully paid malpractice insurance with tail coverage, a specialty specific long-term disability plan, and affordable family health benefits, and defined retirement savings plan with matching employer funds. Send CV via email to Cathy Frank, M.D. c/o lhargis1@hfhs.org. Equal Opportunity Employment Minorities/Women/Disabled/Veterans Henry Ford Health System is a nicotine free employer
