

## Committee Spotlight

**Name:** Neuroscience

**Chair:** Mayada Akil, MD

**Charge:**

The committee's main goal is to remain active and engaged with the larger AADPRT community in order to promote clinical neuroscience education in residency training programs of all sizes and resources.

### Initiatives and projects:

- Conduct monthly committee meetings.
- Support PD's in need of developing/updating their neuroscience curriculum through curriculum consultations.
- Link with new PD's and promote neuroscience education as necessary, accessible, and fun.
- Provide updates on advances in clinical neuroscience education through the list serve and via workshops and posters at the annual meeting.
- Work closely with other committees to integrate neuroscience into many facets of psychiatry education.

### How do you join the committee?

[Email](#) the committee chair expressing interest.

### What skills are you looking for in new members?

Interest in neuroscience education as well as willingness to attend a monthly meeting and to participate actively by working on projects.

### What is the time commitment for committee members?

One hour per month plus whatever time it takes to work on projects you volunteer for.

### What other information might you want potential members to know?

This is a large committee, please only apply for membership if you are committed to attending the meetings currently on the second Wednesday of each month at 4pm ET.
